Luv to Groove May 1st to May 11th

EQAO Grade 3 May 22 to May 24

EQAO Grade 6 May 28 to 30

EQAO Grade 3 and Grade 6 Attention Parents of students in Grade 3 and 6. Students in Grade 3 will be writing May 22, 23 and 24. Grade 6 students will be writing May 28, 29 and 30. The office will not be interrupting these classes during this time. Please ensure any early pick-ups are written in your child's agenda or called into the office as early as possible. If you need to speak to your child we will have them call you during lunch recess. Please arrange appointments outside of these dates if possible.

Kindergarten Open House – May 10th 6 to 7:30pm. This event is for Junior Kindergarten students starting school in September 2018. It is an opportunity for parents and children to meet the Kindergarten Staff and tour the school. Parents are welcome to register their child during this event as well.

Saturday May 26th the Junior and Intermediate Cheerleaders are headed to Canada's Wonderland for a competition. Best of luck to both teams!

Running/Walking Club for students Grade 5 to 8. Students are invited to come out and join Mrs. Licari Monday and Wednesday's to run or walk! Permission forms can be picked up in the office or from Mrs. Licari.

Please provide your email address to receive a copy of the monthly newsletter. Call the school 613-283-1761 or email angela.abbass@ucdsb.on.ca.

Food System. The "food system" includes everything and everybody that's involved from seed to table and beyond. It includes growing, producing, processing, transporting, distributing, selling, buying, preparing, eating and disposing of food waste. When you think of these steps you can see how "food system" thinking can be used for school curriculum links in math, science, social sciences and reading. Local food can also be considered in the school's food environment like the food used for fundraising or hot meal programs. Visit foodcoreLGL.ca, read the Food Charter, scroll through the Food Inventory and see the School Toolkit.

Lyme Disease is Preventable. Ticks that may carry the bacteria that cause Lyme disease are now found throughout our region. As temperatures rise above 4°C ticks become active and begin to look for a blood meal. While not all ticks carry the bacteria, if an infected tick bites you and remains attached for over 24 hours you may be at an increased risk of getting Lyme disease. Lyme disease is preventable. Always do a tick check when you return from the outdoors and remove ticks promptly. For more information visit www.healthunit.org

Eastern Ontario School Mountain Bike Challenge: May 18, 2018, Limerick Forest. Please click here for event details

Let's Talk About Healthy Child Development. Health in early childhood sets the foundation for your child's overall well-being in adulthood. Healthy childhood development is a social determinant of health and valuable investment for all communities. Physical, emotional and language skills learned early on in life contribute to feeling proud, being able to complete tasks and bouncing back from a hard day across the lifespan. Positive parenting strategies are one way to support your child's health and well-being. For more information on healthy child development, visit www.healthunit.org or call 1-800-660-5853.
